AWS STUDENT BUILDER GROUP

Nnamdi Azikiwe University

Where Awka's sharpest students learn to build on the cloud. For real.

2026 / 2027 PARTNERSHIP PROSPECTUS

Who We Are

The AWS Student Builders Group at Nnamdi Azikiwe University (AWS SBG UNIZIK) is the official, student-led cloud computing and builder community on campus in Awka, Anambra State, backed directly by Amazon Web Services (AWS).

We are part of a global network of AWS Student Builder Groups across universities worldwide. AWS funds us with grants, gives our members 12 months of premium Skill Builder access (Cloud Quest, SimuLearn, Builder Labs, Card Clash, AWS Jam), and connects us to a worldwide community of builders.

We don't just talk about tech. We ship it.

> Backed by **Amazon Web Services** with grants, tools, and global community support

Bridging the Gap

There is a real gap between what textbooks teach and what the tech industry actually demands. Most students graduate knowing theory. Very few can deploy a production app, debug a distributed system, or pass an industry certification.

At UNIZIK, we aren't just a group; we are a collective of students who want to build things that matter. From writing full-stack software to designing cloud architecture, we turn tech enthusiasts into industry-ready global professionals.

We don't just plan; we execute.

AWS re:Invent Watch & Build Party

AWS re:Invent is Amazon's biggest annual cloud computing conference, held in Las Vegas every December. Thousands of developers, engineers, and cloud architects fly in from around the world. New services get launched. Keynotes get wild.

Our Watch & Build Party brings that experience to Awka. We livestream the keynotes, run hands-on build sprints with whatever AWS just dropped, play campus games, and give out prizes. All in one high-energy day.

500 students in a room, building together. That's what this is.

Dec 4	9:00 AM	500+
2026	Start Time	Expected Attendees

Venue: UNIZIK Auditorium, Awka

Student Community Day Awka

AWS Student Community Day is a full-day, student-led tech conference. Think dual-track workshops covering Web Development, Cybersecurity, UI/UX Design, AI/Machine Learning, and Cloud Computing. Panel discussions with industry professionals. Project showcases. A hackathon. Real networking that actually leads somewhere.

This is the first AWS Student Community event in Awka. Not the second. Not the third. The very first one. The brands that show up now are the ones people remember.

700+ students, multiple tracks, one massive day.

Q1 2027
Date TBA

700+
Expected Attendees

2 Tracks
Beginner + Advanced

Campus Games

Two big events are great. But what keeps a community alive is consistency. Our bi-weekly Campus Games are the engine that keeps our builders building, year-round.

Card Clash Leagues

The official AWS card game that teaches cloud services through competitive play. Bracket tournaments, prizes for the top decks.

Cloud Quest Speed Runs

Leaderboard battles on AWS Skill Builder. Fastest to clear a quest set wins. Real skills, real rankings.

Syntax Sprint & Demo Days

Timed coding battles plus monthly showcases where members demo what they've built. Ship it or explain why you didn't.

30–80
Students / Session

24+
Sessions / Year

AWS Student Builder Group • UNIZIK Awka

What We've Built So Far

We aren't pitching you a plan. This is already happening.

Study Circles & Workshops

Regular hands-on sessions where members go from "what is a VPC?" to deploying production-ready apps on AWS. Not slides about it. Actually doing it.

Campus Games Program

Bi-weekly competitive sessions. Card Clash, Cloud Quest leaderboards, coding battles. Consistent attendance of 30-80 students every two weeks.

AWS Skill Builder Pipeline

200+ students actively enrolled in the official AWS Academy curriculum with 12 months of premium access. Cloud Quest, SimuLearn, Builder Labs.

Community & Outreach

Growing student engagement across UNIZIK's technical faculties, cross-community collaborations, and national AWS SBG network connections.

DATE (RE:INVENT)	DATE (SCD)	TIME	VENUE
December 4, 2026	Q1 2027 (TBA)	9:00 AM	UNIZIK Auditorium

Who's in the Room

Not a crowd of people scrolling their phones in the back row. These are the students who actually build stuff, run businesses, and will be earning real money in 2-3 years.

CS, Engineering & Business Students

The students most likely to end up building software, running companies, or both. UNIZIK's technical core.

Student Founders & Side-Hustle Operators

Mini-importers, POS agents, freelance developers, food vendors. They already make money. They just need better tools.

Aspiring Cloud Engineers & Developers

Building portfolios, shipping projects, studying for AWS certs. These ones are serious about tech careers.

Early-Career Pros & Ecosystem Partners

Working professionals from Awka tech hubs, She Code Africa, and innovation spaces across the South-East.

Invest in Innovation

You're not buying a logo on a banner. You're getting a room full of your next customers, your next hires, or both.

Unrivaled Talent Pipeline

Direct access to 500+ of Awka's most technically skilled students before they enter the open market. First access beats LinkedIn any day.

Market-Leading Brand Authority

Associate your brand with the first-ever AWS Student Community event in Awka. The brands that show up now get remembered. The ones that show up late get forgotten.

Product Adoption & Feedback

Get your tools, APIs, or services into the hands of builders who are eager to learn and adopt new technologies. 1,200 students trying your product in one afternoon.

Ecosystem Impact

Make a tangible contribution to the growth of the South-East Nigerian tech ecosystem. Awka's tech scene is growing fast and nobody owns it yet. Help us build it.

What You Actually Get

No hand-waving. Here's exactly what shows up in your inbox and on your brand report after the event.

DELIVERABLE	DESCRIPTION
Brand Visibility	Your logo on merch, stage backdrops, banners, digital screens, and printed materials. People will see your name all day.
Exhibition Booth	Your own booth space for product demos, sign-ups, and live activations. 1,200 people walking past is a lot of foot traffic.
Speaking Session	Stage time to talk to the room. Show what you do, hire who you want, or just tell your story. Duration depends on tier.
Product Activation	Onboard users on the spot. QR codes, live demos, app downloads. The conversion rate in a room of engaged students is wild.
Social Media	Shoutouts before, during, and after the event across all our channels. Tagged, hashtagged, the whole thing.
Stage Recognition	We say your name out loud. Opening, closing, and at key moments throughout the event. Everyone hears it.
Talent Access	Talk directly to students, founders, and early-career builders. Recruiting, internships, or just making connections.
Impact Report	A real report within 72 hours. Attendance, social reach, booth visits, app downloads, photos, and your specific numbers.

Pick Your Level

One event, both events, or the whole year.

Partnership Tracks

Cash isn't the only currency. If you can feed 500+ people, keep the Wi-Fi alive, or print 300 hoodies, we want to talk.

SWAG PARTNER

The Merch Track

Co-brand our hoodies, t-shirts, and stickers. 500+ students wearing your logo around campus for months.

CATERING PARTNER

The Fuel Track

Sponsor the midday networking lunch or morning tea break. Exclusive signage in the dining area.

INTERNET PARTNER

The Connectivity Track

Provide the high-speed Wi-Fi that keeps 500 laptops connected. "Internet by [Your Brand]" on every screen.

CHALLENGE PARTNER

The Talent Prize Track

Sponsor a hackathon category, provide the winning prize, and join the judging panel.

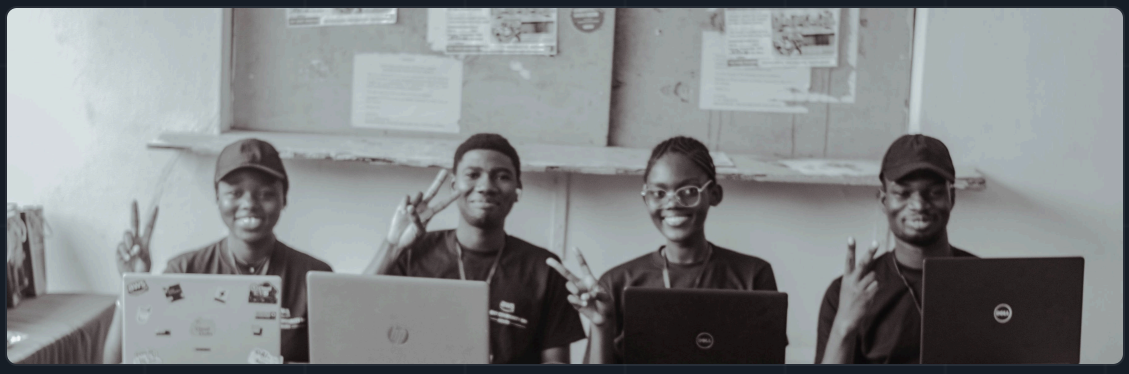

TRAVEL & HOSPITALITY

The Logistics Track

Speaker transport, hotel rooms, and shuttle service. You handle the logistics, we handle the gratitude.

Let's Build Together

December 4th is coming fast. If you want a seat at the table for Awka's biggest tech event of the year, now is the time to reach out.
